

## Program Description

**Boulware Mission's Intensive Outpatient Alcohol Treatment Program emphasizes the *whole* person, not just the addiction.**

**We do this by addressing the spiritual, emotional, and physical effects of substance abuse.**

**The program includes group counseling, drug and alcohol education, relapse prevention, introduction to the 12-step program and aftercare planning. Treatment sessions are held twice weekly for 3 hours.**

**Don't let addiction control your life.**

**Getting help for addiction is not as complicated as you might think. All you need is the desire to become well and to take the steps needed to get started.**

**Take the first step to starting your journey to recovery now!**
